Summary

I'm a product-focused designer who works best in early-stage environments, taking ideas from 0 → 1 and turning them into real, usable products. I don't just design screens. I think like a product leader, design with UX depth, and execute with speed.

Experience

UI/UX Designer Lead - RYDEPRO

Remote, United States - Oct 2025 - Jan 2025

- Designed end-to-end booking and post-trip flows for a transportation platform (rider, driver, and admin).
- Built admin dispatch and booking management concepts, including KPIs, trip states, and driver assignment logic.
- Led & Collaborated cross-functionally with product managers and developers to align UX with real operational workflows.
- Translated complex transportation operations into scalable, structured UI systems using Figma.

Product Designer - Freelance

Remote - Open

- Designed fintech, eSIM, Virtual Numbers & Wireless 5G — manage modern connectivity all in one powerful app (Web & Mobile). Simkash.com
- Designed a scalable fintech platform with personal, business, and merchant account flows, POS management, and compliance (KYB) features. Karrypay.vercel.app
- Designed and delivered vyskcatering.co.uk for a UK catering brand, highlighting brand story, services, and an intuitive ordering flow to drive enquiries and bookings.

UI/UX Designer - Appfur Mobile App Developer

Remote, Nigeria - Dec 2024 - Jul 2025

- Designed a powerful property management platform that connects tenants, landlords, and HOAs to simplify operations and improve community living. (Xtatehub.com)

UI/UX Designer - Vehance Technologies LTD

Remote, Nigeria - Sep 2024 - May 2025

- I led the end-to-end design of Arewaflix, a Nigerian entertainment streaming platform inspired by Netflix.
- UI/UX design for Payloow, a digital payments platform, focusing on seamless onboarding, secure transactions, and an intuitive user experience.

Intern - Stem Innovators Lab

On-site, Nigeria - Sep 2021 - Sep 2023

- I led the end-to-end design of Onimsagro.com, a digital platform empowering farmers and connecting buyers, creating a clear, trust-focused experience that supports agricultural trade and growth.
- Started my career in frontend development and transitioned into UI/UX design, contributing to real-world products and building a strong product-thinking foundation.

Education

University of Maiduguri

- BSc Computer Science. 3.7 GPA, Veterinary Med Drop-out, UX Design Club, GDG UI/UX Designer & Member
